Ringkasan / Summary

Saya adalah seorang Front-End Developer otodidak yang memiliki ketertarikan besar dalam membangun aplikasi web modern dan sistem ERP. Saya senang mempelajari flow aplikasi, merancang struktur database, serta membangun antarmuka yang sederhana, responsif, dan mudah digunakan. Saat ini saya terus mengembangkan kemampuan saya dalam React, Next.js, TypeScript, Tailwind CSS, dan Supabase untuk membangun aplikasi yang scalable dan mudah dikembangkan.

Technical Expertise

Languages & Core: HTML5, CSS3, JavaScript (ES6+), TypeScript

Libraries & Frameworks: React.js, Next.js, Tailwind CSS, Framer Motion

Backend & Tooling: Supabase, REST API Integration, Responsive Web Design, UI/UX Fundamentals, Database Design, ERP Dashboard Development, Authentication & Role Management

Featured Projects

LUMORA Multi-Store E-Commerce & ERP Dashboard: A modern multi-store ERP platform featuring multi-branch management, branch isolation, and robust dashboard analytics. Built with Next.js and Supabase.

RYDGO Ride Hailing Platform: A comprehensive ride hailing platform incorporating Customer, Driver apps and an Admin Dashboard. Currently under development.

Personal Portfolio: A premium personal portfolio website built with Next.js, TypeScript, Tailwind CSS, and Framer Motion.
